

FOR ACCOUNTANTS AND ADVISERS

Your accountant looks after tax time. *Command keeps an eye on the other 51 weeks.*

For accountants, lawyers and property managers who advise owners in Melbourne. Command is a private system around one owner's business. It reads what they already have and the public news that touches it, and tells them early, with the prep done. Nothing goes out without their OK.

How a referral works

- 1 You introduce an owner** you think would benefit.
- 2 We run a First look for them.** One past deal, read-only, with their written permission.
- 3 We send you a copy** of the First look, with the owner's OK.
- 4 A disclosed thank-you** if they go ahead, in writing to the client before any payment.

Your part: an introduction. Ours: the First look, the write-up and the disclosure.

The breakfast briefing

45 minutes, for your property clients, hosted by your firm. What gave notice last quarter, one worked example, and what an owner needs to do. No sales pitch.

What we need from you

A short introduction, a client who would benefit, and your agreement to the disclosure. That is all.

FIRST LOOK · FREE

Give us one past deal. We'll show you the day you could have known.

If it isn't useful, we stop there.
